

# Environmental work in Nuup Kommunea

# Environmental vision

Nuuk Municipality will be a leading actor within the environmental area in Greenland. The effort will benefit the Inhabitants of Nuuk as well as the global environment

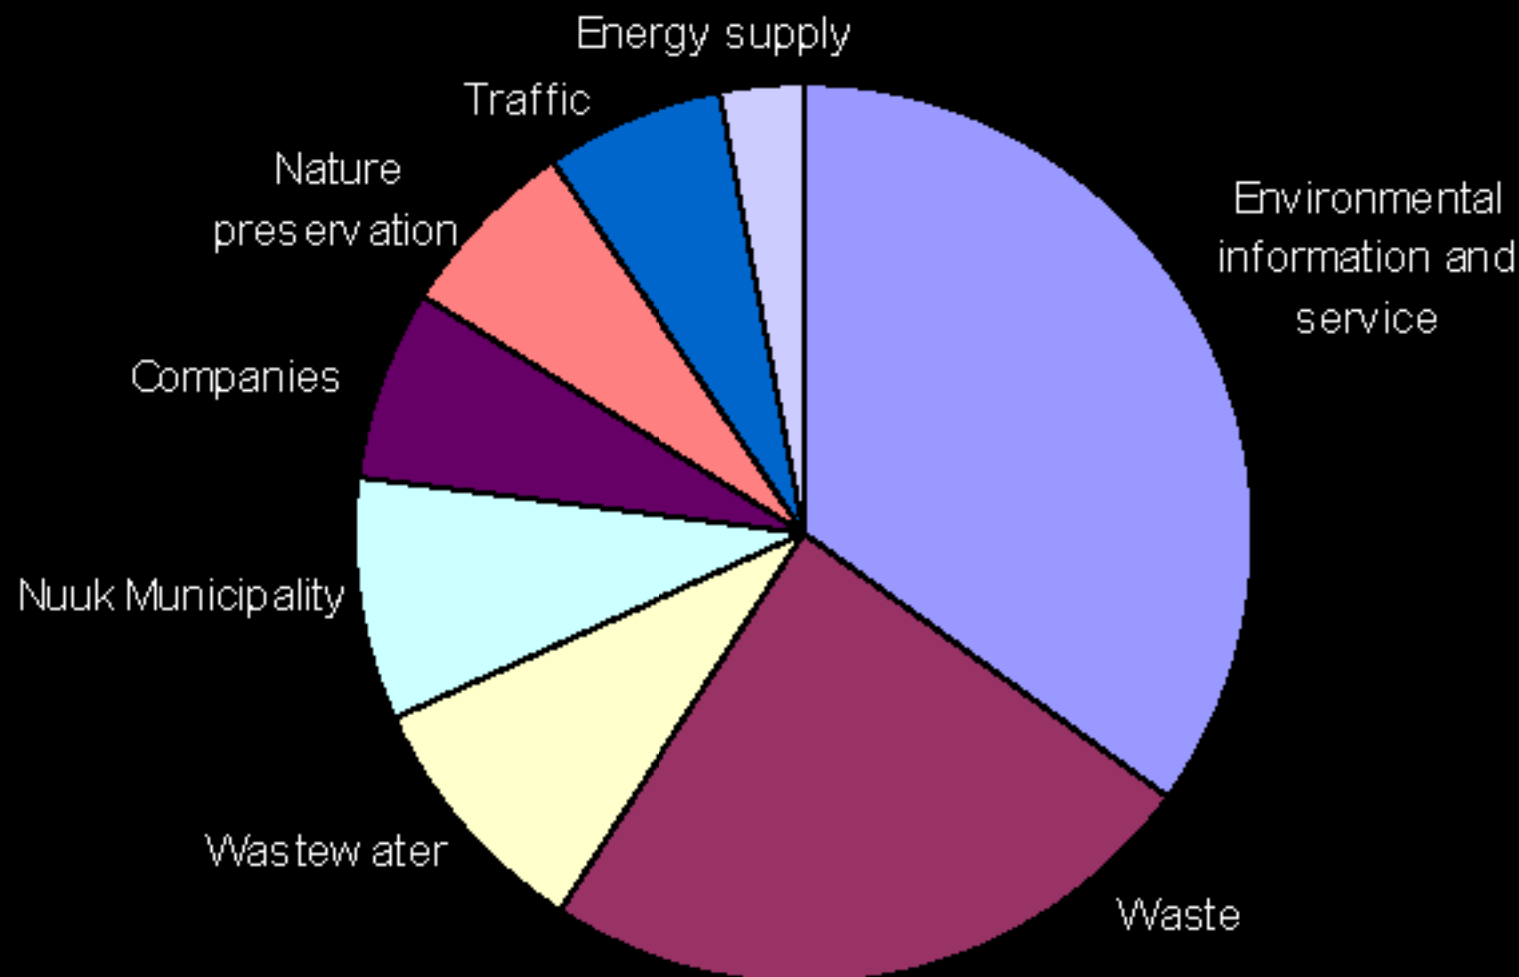

# Nuuk Municipality environmental policy is to:

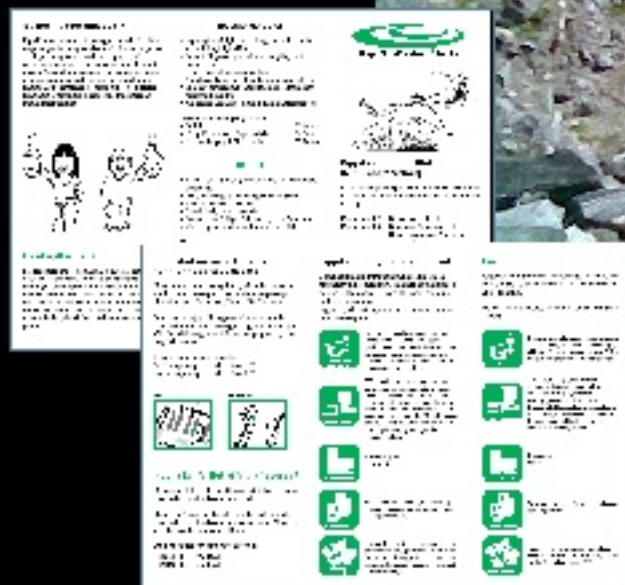

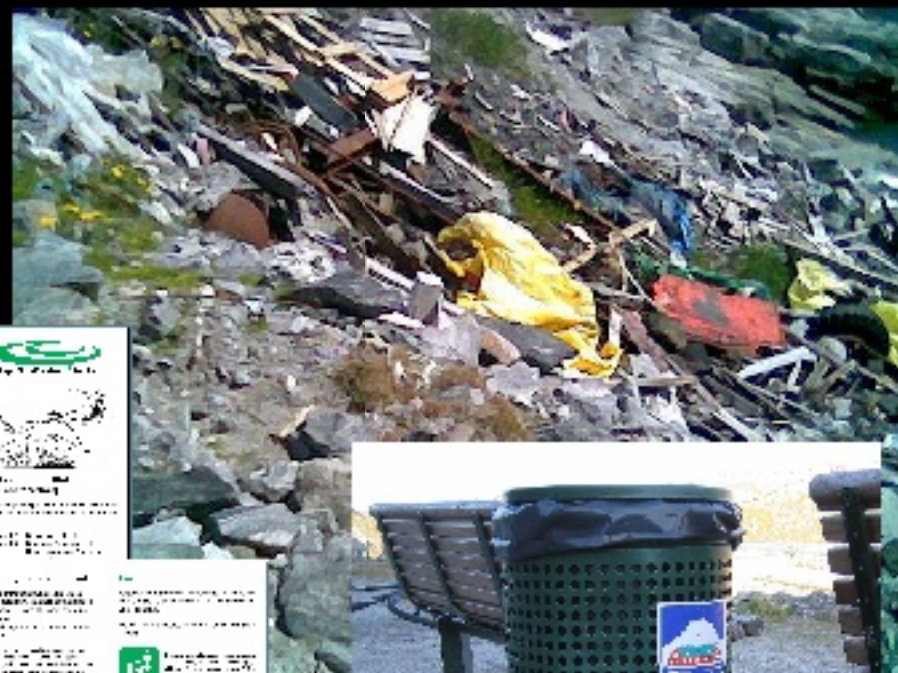

- Respect statutory legislation and relevant official requirements.
- Reduce and prevent pollution of the environment, within the scope of economic feasibility.
- Keep our action plans for the environment, waste and wastewater updated
- Reduce consumption of resources in the daily work at Nuuk Municipality, by working with environmental management.
- Inform citizens, companies and organisations about environmental issues.

# Environmental action plan 2006-2010
