

Local Leaders Push National Policy

- In June 2006, Anchorage became the 1st Alaska city to pledge to reduce greenhouse gas emissions by 7% from 1990 levels.
- Anchorage was also 1st Alaska city to join ICLEI Climate Protection Program.

Reducing Greenhouse Gas Emissions

- Conducting a City-wide emissions inventory to establish sector targets for emission reductions.

A composite image featuring an EnergyGuide label for a room air conditioner, a photograph of a compact refrigerator with an EnergyGuide label on its door, and a compact fluorescent light bulb. At the bottom, there is a blue Energy Star logo and the text 'ENERGY STAR'.

ENERGY STAR

Sustainable Building Working Group

Drawing of the Anchorage Museum expansion.

The soon-to-be renovated Mountain View Library.

Tour of the DIRT wall systems at Sadler's Building.

- Developing a City law to encourage energy-efficient building design and construction in Anchorage.
- Working with the Anchorage Museum, Mountain View Library and other projects under construction to build green buildings.

Putting State-of-the-Art Systems in Anchorage's New Civic & Convention Center & City Hall

- The new Dena'ina Convention Center will be a model of energy efficiency.
- An energy audit of City Hall is underway which will result in a retrofit project estimated to save the City over \$100,000 a year.

Methane collection at Anchorage's landfill

- Natural methane gas from the landfill will provide enough electricity to power 2500 homes for 40 years.
